

saunum

A climate device for a sauna with
a wood-burning or electric heater

saunum base

Saunum Base solves the main problems of modern steam saunas that use classic wood-burning or electric heaters, such as temperature stratification, brief yet scorching steam, and low breathability. The unique Saunum Base sauna climate device, which complements the heater, fits in every sauna, ensuring a more even temperature with a softer and more airy steam. Himalayan salt balls and the modern features of the device make each sauna a relaxing spa experience.

A climate device for a sauna with a wood-burning or electric heater

saunum base

Saunum Base sauna climate devices enable a balanced sauna steam and are designed with a wide range of colours and installation options. Install the climate device on the wall, or recessed or integrated into the wall. It is very easy to control the climate device with the touch switch.

Saunum Base offers a unique steam experience and a relaxing five-in-one home spa solution. With the Saunum device, the steam is softer and mixed with cooler air, which makes it easier to breathe. Water can be thrown more often to produce more steam, making the sauna air more humid, and ensuring more intense sweat. After the steam, no headache or sauna fatigue occurs. Enjoy a soft steam sauna, a sauna enriched with salt ions, a humid steam-rich sauna, a sanarium, or an aroma sauna.

Five-in-one
home spa

Long mild
steam

Easy to
breathe

Suitable for the
whole family

saunum base, saunum base short

A sauna climate device that could be installed on the wall or recessed into the wall

Included	Climate device, salt balls 7 pcs, turn switch
Sauna climate device	3 speed levels, vent adjustment
Colour selection of the housing	Brushed steel, anthracite grey
Colour selection of the glass	White, black, patterned
LED colours	Only on patterned glass – blue, red, white
Power, supply voltage	60 W/75 W with LED lighting, 230 V – 50/60 Hz
Safety distance	Safety distance from the heater, according to the instructions for the particular heater. There must be no objects in front of the climate device and your feet, and other body parts, must not be kept closer than 50 cm.
Height of the device	Saunum Base 2046 mm / Saunum Base Short 1789 mm
Height of the device together with protective grille*	Saunum Base 2157 mm / Saunum Base Short 1900 mm
Depth and width of the device	226 x 437 mm
Weight of the device	30 kg

* The protective grille must be used if the device is recessed into the wall.

Additionally required:

Overcurrent protection	B1 A
Power cable, 1 phase	Adequate for the temperature range, min 3 x 0,5 mm ² . In the case of an external switch, a minimum of 5 x 0,5 mm ² between the switch and the device.
If recessed into the wall	Protective grille
For the aroma sauna	Saunum sauna oil set
For easy control	Saunum touch switch (black or white)

saunum base s

Integrable climate device

Included	Climate device, salt balls 7 pcs, touch switch (black or white), protective grille
Sauna climate device	3 speed levels, vent adjustment
Colour of the housing	Visible parts – anthracite grey
Power, supply voltage	60 W, 230 V – 50/60 Hz
Safety distance	Safety distance from the heater, according to the instructions for the particular heater. There must be no objects in front of the climate device and your feet, and other body parts, must not be kept closer than 50 cm.
Height of the device	Adjustable 1690–2300 mm
Depth and width of the device	226 x 423 mm
Weight of the device	30 kg

Additionally required:

Overcurrent protection	B1 A
Power cable, 1 phase	Adequate for the temperature range, min 5 x 0,5 mm ² .
For the aroma sauna	Saunum sauna oil set

How does the sauna climate device work?

Saunum's patented air-mixing system traps the scorching steam, that rises under the ceiling of the sauna room, mixes it with cooler air on the floor surface, and directs the soft steam back evenly. This ensures a more even temperature of the steam, and the oxygen-enriched steam makes it easier to breathe. Water can be thrown more often to produce more steam, making the sauna air more humid, and ensuring more intense sweat.

With a patented method of enriching the air with salt ions; the salt ions, from the Himalayan salt balls, added to the sauna climate device are emitted into the circulating air to reach the skin and respiratory tract.

An even more relaxing sauna experience is created with the help of the aroma system, which mixes sauna oil aromas with the steam. It is a healthy alternative to burning aromatic oil on stove stones.

Relaxing sauna and home spa

Try different settings and steam intensities.

Classic Nordic steam sauna

Temperature 60–100 °C

Speed level 1 of the climate device

The valve of the climate device is 25% open

Humid steam-rich sauna

Temperature 45–60 °C.

Speed level 2 of the climate device

The valve of the climate device is 100% open

The lower the temperature, the more open the valve and the higher the speed of the climate device, the more steam is generated when throwing water on a heater.

The mild sanarium

Temperature 40–55 °C

Speed level 1 of the climate device

If you prefer a humid, steam-rich sanarium, keep the valve of the climate device at least 25% open.

Sauna enriched with salt ions

Temperature 40–100 °C.

Speed level 1 of the climate device

The valve of the climate device is 25% open

The salt balls added to the climate device work at any temperature, if the sauna climate device is switched on.

Relaxing aroma sauna

Temperature 40–90 °C

Speed level 1 of the climate device

The valve of the climate device is 25% open

Add some Saunum aroma oil to the sauna device and enjoy!
