

saunum

A sauna heater for large homes
and public spa saunas

saunum professional

Saunum Professional is a unique heater with a climate device with an elegantly beautiful appearance and an exceptionally large stone basket, which is specially created for an improved sauna experience in larger sauna rooms. The large stone volume and the patented air mixing system ensure exceptional steam that is soft and long, and evenly distributed throughout the steam room. Himalayan salt balls and modern features create a relaxing sauna and spa experience.

A sauna heater for large homes and public spa saunas

saunum professional

Made of brushed steel or genuine copper, Saunum Professional is a real gem in both homes and public saunas. With the Leil control unit, it is very easy to control the heater and the sauna climate device – you can heat the sauna and adjust the climate with just a few taps directly from the touch screen or from your smart device.

Saunum Professional offers a unique steam experience and a relaxing five-in-one home spa solution. With the Saunum device, the steam is softer, and the steam mixed with oxygen-rich air makes it easier to breathe. Water can be thrown more often to produce more steam, making the sauna air more humid, and ensuring more intense sweat. After the steam, no headache or sauna fatigue occurs. Enjoy a soft steam sauna, a sauna enriched with salt ions, a humid steam-rich sauna, a sanarium, or an aroma sauna.

Five-in-one
home spa

Long mild
steam

Easy to
breathe

Suitable for
the whole family

Included:	heater, climate device, salt balls 10 pcs
Stone basket:	to be installed by the wall or in the corner
Colour selection:	brushed steel, copper, anthracite grey
Climate device:	3 speed levels, vent adjustment

Power of the heater	12 kW	15 kW	18 kW	23 kW
Sauna room	10-15 m ³	13-18 m ³	16-22 m ³	20-32 m ³
Min height of the room	2250 mm (2150 mm device) / 2450 mm (2350 mm device)			
Min safety distance from the heater:				
sides	250 mm			
front	250 mm			
from stones to ceiling	1000 mm			
Height of the device	2150 mm or 2350 mm			
Depth and width of the device	Professional: 600 mm x 750 mm / Professional C: 705 x 705 mm			
Weight of the device	86 kg			

Additionally required

Heater stones Ø 5-10 cm	200-220 kg			
Fuse, 3 phases	C20 A	C24 A	C32 A	C40 A
Power cable for the heater, 3 phases	5 x 4 mm ²	5 x 4 mm ²	5 x 6 mm ²	5 x 10 mm ²
Power cable for the climate device, 1 phase	5 x 1,5 mm ²			
Control unit	Saunum Leil or Saunum Leil Mobile			
For the aroma sauna	Saunum sauna oil set			

saunum professional

to be installed by the wall

saunum professional C

to be installed in the corner

Choose the heater with power adequate to the cubage of the sauna room

However, for non-insulated walls (brick, glass block, glass, concrete, floor tiles, etc.) a more powerful heater is needed. Add 1.2 m³ to the cubage of the steam room per each square meter of uninsulated wall.

For example, a 10 m³ sauna room with a glass door corresponds to the power requirement of a 12 m³ sauna room.

How do Saunum's heater and climate device work?

Saunum's patented air-mixing system traps the scorching steam, that rises under the ceiling of the sauna room, mixes it with cooler air on the floor surface, and directs the soft steam back evenly. This ensures a more even temperature of the steam, and the oxygen-enriched steam makes it easier to breathe. Water can be thrown more often to produce more steam, making the sauna air more humid, and ensuring more intense sweat.

With a patented method of enriching the air with salt ions; the salt ions, from the Himalayan salt balls, added to the sauna climate device are emitted into the circulating air to reach the skin and respiratory tract.

An even more relaxing sauna experience is created with the help of the aroma system, which mixes sauna oil aromas with the steam. It is a healthy alternative to burning aromatic oil on stove stones.

Relaxing sauna and home spa

Try different settings and steam intensities and add your favourites to the selection of steam types on the control unit.

Classic Nordic steam sauna

Temperature 60–100 °C

Speed level 1 of the climate device

The valve of the climate device is 25% open

Humid steam-rich sauna

Temperature 45–60 °C.

Speed level 2 of the climate device

The valve of the climate device is 100% open

The lower the temperature, the more open the valve and the higher the speed of the climate device, the more steam is generated when throwing water on a heater.

The mild sanarium

Temperature 40–55 °C

Speed level 1 of the climate device

If you prefer a humid, steam-rich sanarium, keep the valve of the climate device at least 25% open

Sauna enriched with salt ions

Temperature 40–100 °C.

Speed level 1 of the climate device

The valve of the climate device is 25% open

The salt balls added to the climate device work at any temperature, if the sauna climate device is switched on.

Relaxing aroma sauna

Temperature 40–90 °C

Speed level 1 of the climate device

The valve of the climate device is 25% open

Add some Saunum aroma oil to the sauna device and enjoy!
